## Fine Tablewares and Bric-a-Brac

For June  
Wedding  
Presents

Our Basement Art Salon is just now almost bursting with the exquisite art things that have been collected direct from the chief sources of supply abroad. Two facts are of large importance in connection with this exhibition.

First, is the careful way in which these art things are selected. Our expert makes a thorough tour of all the European art centres, and he picks here and there the choicest things that are discovered. Thus the collection is most broadly representative of the highest foreign art. On the other hand, in buying direct we secure prices free of the intermediate profits and commission that are paid by the usual dealers in these wares.

Those who are familiar with art wares and their prices are frequently astonished to discover not only how choice are the pieces shown at WANAMAKER'S, but how exceptionally low are the prices marked on them. Seekers of wedding gifts of high character will enjoy looking through this collection.

The present display of Cut Glass is also full and complete in preparation for the June season. Some interesting items follow:
